PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern

06/2024 – 08/2024

-Aimers

- Create innovative Telegram Bots, including Gemini Bot, Weather Bot, Maths Problem solving Bot, and Talking AI Bot using various APIs.
- Designed a dynamic Power BI dashboard for effective data visualization, enabling stakeholders to make data driven decisions. Additionally completed Image classification.

Web Development

05/2023 – 06/2023

-Technohacks

- Engaged in multiple projects that enhanced my technical skills and provided practical experience. I began with foundational tasks, such as developing a simple calculator, and progressed to more complex projects like creating interactive websites, showcasing my growth and adaptability.
- Acquired a solid understanding of programming concepts through hands-on experience. These projects allowed me to apply classroom knowledge in real-world scenarios, improving my problem-solving abilities and boosting my confidence in tackling new challenges.

PROJECTS

Online Food Delivery Management System

- Developed a secure Flask-based product management system with features for product handling, user management, and transaction logging.
- Ensured data integrity through parameterized queries, transaction management, and validation.
- Integrated image processing and followed backend security best practices for secure data storage and application functionality.

Telegram Chat Bot

- Developed a Python-based chatbot that uses keyword recognition to identify user inputs and provide automated, instant replies, communication and handling common queries without manual intervention.
- Integrated the Telegram Bot API to enable seamless interaction with Telegram's messaging platform, ensuring real-time responses to user messages based on predefined keywords for a smooth user experience.

EDUCATION

R.V.R and J.C College Of Engineering,

12/2021 – 06/2025 | Guntur

Computer Science and Engineering

CGPA : 9.2/10

Narayana Junior College

06/2019 – 05/2021 | Vijayawada

Board of Intermediate Education AP

percentage : 97.5

Narayana High School

06/2018 – 04/2019 | Vinukonda

Board of Secondary Education AP

CGPA : 10.0

SKILLS

Languages: C , Python , Java

Web Technologies: HTML , CSS

Database System: SQL

Tools: Tableau, Jupyter notebook, Vs code

CERTIFICATES

Nptel:

The Joy of Computing Using Python(May 2023) , Programming in Java(May 2022), Privacy and security in online social media (Apr 2024)

Simplilearn:

Python for beginners(Mar 2024)
